## EDUCATION

### **University of Pennsylvania, School of Design**

- Master of Science in Design with a concentration in Advanced Architecture Design(MSD-AAD)
- Time-based and Interactive Media Certificate

**Philadelphia, PA**

Expected Dec. 2017  
Expected Dec. 2017

### **Southeast University, School of Architecture**

- Bachelor of Architecture, GPA: 3.72/4.0

**Nanjing, China**

Sept. 2011- Jun. 2016

## WORK EXPERIENCE

### **Intern, NO ARCHITECTURE, PLLC., New York, The U.S.**

**May. 2017 – Oct. 2017**

- Assisted the principal in competition projects including programming and analysis, project planning and design.
- Code and design the official website of the company.

### **Intern, Tongji Architectural Design (group) Co., Ltd., Shanghai, China**

**Jul. 2015 – Oct. 2015**

- Assisted the vice president in Program Operation Department in Development design, construction design.
- Collected and visualized data, design diagrams for several projects.

### **Intern, Architects & Engineers Co., Ltd. of Southeast University, Changzhou, China**

**Sept. 2014 – Oct. 2014**

- Site Investigation of Qingguo Lane Changzhou.
- Collecting data for Department of Architecture Conservation

### **Intern, UA-GROUP., Nanjing, China**

**Aug. 2014 – Sept. 2014**

- Designed and fabricated physical models for several projects.
- Assisted the president architect in the group in data collection and visualization.

## RESEARCH EXPERIENCE

### **Wooden Railings Study of Qingguo Lane, Changzhou City**

**2014 - 2015**

- Studied joints and decorative patterns of the wooden railings in Qingguo Lane from the Ming and Qing Dynasties. Apply programming language to the reproduction and extension. Attempt to explore the potential of traditional construction with existing digitization methods. (funded by government)

### **Chopped Wooden Wall Construction Study**

**2013 - 2015**

- Explored how to reuse the existing waste materials (primarily wood) through technical means. Focus on solving the problem of non-standardization, like how to unify and naturalize the unpredictable waste materials into suitable construction structures, and discussing its significance. (funded by government)

### **Virtual Architecture Study**

**2014 - 2015**

- Explored the potential development and characteristics of future virtual architecture, using existing digital technology and virtual scene resources based on the discussion of fundamental concepts, like Information and Virtual Reality, etc. (funded by school)

## AWARDS

### **Honorable Prize (TOP 18)**

**Nov. 2016**

- Dongjingyu Village Regeneration International Landscape Design Competition

### **The Third Prize (TOP 9)**

**Nov. 2015**

- China Architectural Education TSINGRUN Award Students' Paper Competition, undergraduate group

## SOCIAL ACTIVITIES

### **Head of Publicity**

**Jun,2014 – August 2014**

- The First Chinese Rookies' Award for Architectural Students

### **Role "Doctor" in Drama "Amber" / Role "Eleven" in Drama "Twelve People"**

**Mar. 2013 – Oct. 2014**

- SOA Modern Drama Club

## SKILLS AND LANGUAGES

- Software: Maya/Rhino/Revit/AutoCAD/Adobe Suite/Sketchup/Ecotect/Grasshopper
- Programming: Processing/Java/Python/HTML/CSS/JavaScript
- Language: Proficient in English, Mandarin Chinese
